👤 Summary

Full Stack Developer (React.js | Node.js | Next.js) with hands-on experience building and deploying real-world web and mobile applications. Skilled in **JavaScript / TypeScript**, developing scalable front-end interfaces, and building secure back-end APIs using **Node.js / Express.js** with database integration (**MySQL**). Strong experience in **REST API integration, authentication (JWT), state management (Redux Toolkit), Firebase services**, and converting **Figma UI/UX** designs into responsive, production-ready applications. Proven ability to deliver complete solutions across **e-commerce systems, smart applications, dashboards, and mobile platforms**, with a strong focus on performance, clean architecture, and maintainable code.

🛠️ Technical Skills

Front-End - React.js, JavaScript (ES6+), TypeScript - HTML5, CSS3, Tailwind CSS - Responsive UI, Component Reusability, Performance Optimization	Databases - MySQL, PostgreSQL, MongoDB - Firebase (Firestore, Authentication, Cloud Messaging / Notifications)
Backend & APIs - Node.js, Express.js, NestJS - RESTful APIs, GraphQL - JWT Authentication, API Design, MVC Architecture	Mobile Development - React Native, Expo - Redux, Redux Toolkit, Context API - React Navigation - OTA Updates, Mobile Debugging & Profiling
Tools & Deployment - Git, GitHub, Bitbucket - Play Store Publishing, App Store Publishing - CI/CD basics, Hosting & Deployment workflows	

📁 Experience

Kulsys Technologies Full Stack Developer - Developed and maintained scalable web and mobile applications using React Native, Next.js, TypeScript, and modern frontend technologies. - Contributed to the development of an ERP system using Next.js, implementing responsive interfaces and business-focused modules. - Built reusable and maintainable UI components, ensuring consistency across projects and improving development efficiency. - Optimized application performance, enhanced user experience, and resolved frontend issues through debugging and testing. - Collaborate closely with designers to deliver polished UI/UX.	Sheraton, Egypt (04/2026 – Present)
Contact Financial React Native Developer Trainee - Developed and maintained cross-platform mobile applications using React Native and TypeScript. - Build modular, reusable components that align with the design system. - Integrate RESTful APIs and Firebase for real-time data handling. - Optimize app performance and debug using React Native dev tools and profiling.	Cairo, Egypt (07/2025 – 08/2025)

- Developed **scalable web applications** using **React.js** and **Next.js**.
- Built backend services and **RESTful APIs** using **Node.js** and **Express.js**.
- Implemented **responsive user interfaces** and reusable components.
- Managed application state using **Redux Toolkit** and **Context API**.
- Integrated frontend with backend APIs and authentication services.

Media Zone | Fullstack Developer

Cairo, Egypt (10/2023 – 01/2024)

- Developed and deployed **full-stack web applications** using **React.js** and **Node.js**.
- Designed **responsive, user-friendly UIs** following modern design standards.
- Built and consumed **REST APIs** using **Express.js**.
- Integrated databases and backend logic with frontend features.

Freelancer | Full Stack Web Developer

Cairo, Egypt (05/2023 – Present)

- Delivered responsive, scalable, and high-performance web applications using **React.js** and modern front-end tools.
- Built full-stack solutions by integrating front-end interfaces with **Node.js backend APIs** and databases.
- Improved user experience through clean UI structure, reusable components, and efficient state management.

 Projects

- **Hotel Website (Lehotel):** Developed a complete hotel booking system with a professional admin dashboard using **React.js** and **Node.js**, including room management, reservation tracking, and **online payment integration using Paymob** with booking status updates (Pending / Paid / Confirmed).
- **Home Finder Website (Real Estate Agency):** Built a full real estate platform with a professional admin dashboard using **React.js** and **Node.js**, featuring property management (CRUD), agent control, client inquiries, and advanced search & filtering.
- **Smart Home Mobile App:** Controls and monitors smart devices in real-time, integrating Firebase for data management and push notifications.
- **Wow Fashion Website:** Built a responsive e-commerce website with a robust admin dashboard using React.js and modern front-end tools, featuring product management, order tracking, and analytics.
- **HABIB Website:** This website is responsible for showing Habib's works and who Habib is, and users can reserve workshops on this website by filling out a specific form.
- **CADI Website:** It is a website that offers information, reviews, and resources related to electronic devices such as computers, smartphones, laptops, and other technology gadgets. You can visit our website here.

 Courses

- **React JS & React Native — Contact Financial**
- **JavaScript — Udemy (Jonas.io)**
- **React JS — Udemy (Jonas.io)**
- **Advanced JavaScript (ES6+) — Udemy (Jonas.io)**
- **TypeScript for Front-End Developers — Udemy (Jonas.io)**
- **Front-End Development (HTML, CSS, Tailwind, JS) — Orange (Online Training)**
- **Node.js & Express.js — Udemy**
- **MySQL & PostgreSQL — Udemy**
- **Git & GitHub — Udemy**

 Education**New Cairo Technology University**

Bachelor of Information and Communication Technology (IT) – Software Development Department

Graduation Year: 2025

Degree: Excellent
